

03 · Intraday execution

FXC Pro · Class notes (view only)

Topics in this lesson

- Session timing
- News windows
- Trade management

Illustrative chart — for education only. Not financial advice.

Explanation

Intraday traders exploit the volatility of specific sessions — London and New York overlaps offer the richest opportunities.

Knowing when high-impact news is released lets you avoid or deliberately trade volatility, never be surprised by it.

Managing a trade once it is live — trailing, scaling, or exiting — is a skill we practise in the live labs.
